

TO WHOM SO EVER IT MAY CONCERN

STAR is a registered vendor of **TATA COMMUNICATION** and is providing Fiber Maintenance Services for **TTSL & Vodafone** fiber network.

They are using their own make of **Star Fusion Splicing Machines** for their **FRT Teams** deployed in DELHI-NCR for maintaining our OFC network.

Machines are working well & we are satisfied with the performance.

I would certainly recommend **STAR splicing machines** to other operators & service providers.

The STAR Company is also providing **good services & backend support**.

Overall a good & professional experience we are having with Star Group.

We wish them all the best for their Make in India venture.
