

# Star Cable Climper Wire Cartridge

## Product Overview

The Star Cable Climper Wire Cartridge is a specialized component designed for efficient and secure wire clamping in cable management applications. It is commonly used in conjunction with Star Cable Clipping Machine to ensure reliable management of overhead hanging non electrical wires and cables.

## Key Features:

- **Durable Construction:** Made from high-quality materials.
- **Precision Design:** Ensures accurate, secure and long-lasting wire management.
- **Compatibility:** Works with various all generations of Star Climper Machines.

The **Star Cable Climper Wire Cartridge** enhances efficiency and reliability in wire management tasks, making it a valuable tool for electricians, technicians, and DIY enthusiasts

## Wire Cartredge for Star-Cable Climper Machine

### Specification Sheet

Product Name	Galvanized MS Wire Spool
Model	1 mm, 110m/Spool
Base Material	High-Quality MS Wire
Coating	Zinc (Galvanized), Rust Protection Layer
Length per Roll	110 meters Per Cartridge
Surface Treatment	Enhanced Corrosion Resistance
Tensile Strength	High Tensile Strength for Durability and Flexibility More than 6nm
Conductivity	Suitable for Non-Conducting, Non-Electrical Cable Binding Application
Length Per Knot	30Cm to 70Cm per Shot
